"Employees who are 'engaged and thriving' are 59% less likely to look for a job with a different organization in the next 12 months." Keeping a strong workplace culture is important regardless of the size or nature of your organization. - Bonusly

The Global Leadership League is an award-winning organization for professionals committed to global and higher education engagement. Our mission is to provide a vibrant, safe space for professional and personal development through community, knowledge, and learning from each other. We support our members towards their highest personal and professional advancement, no matter their level or position.

With over 1400 members in over 40 countries, our members come from different backgrounds, abilities, levels of experience, and regions of the world. Our goal is to embrace this diversity and encourage partnerships across generations and experience levels for the benefit of all involved. We offer innovative virtual and in-person resources including mentoring circles, workshops, skill development and networking events. We focus on real-world applications of leadership strategies, honest conversations and finding solutions.

WHY SHOULD YOU JOIN THE LEAGUE?

Our mission is also to provide equity in professional development. Due to cost and time, international in-person conferences are often available to a small group within your organization. What about your other team members? With The League, you can help all the team network in a global space while expanding their knowledge and capabilities. For example:

- The League is for everyone – all genders, all positions. Our themes cross all levels including those who are new to the workplace and those who are now leading teams.
- We are the most cost-effective means to provide networking and training to everyone in your organization - could be less than \$10 a year per person.
- You may struggle to engage your overseas team members. Your group status includes memberships for all your organization, including the 'home' office/campus and global staff.
- Every person under your group membership is provided an individual account so they benefit directly from your organizational partnership. Our announcements go directly to their email, so you do not have to remember to forward details.
- All current programs are free to League members and additional certificate learning will be offered at a reduced cost to current members.
- Our programs are offered across time zones and recorded so that your teams can dial in and listen when it works for them.
